Skills

As a seasoned Javascript Developer with extensive experience in Full Stack Web Development, Application Engineering, and Software Engineering Analysis, I bring a wealth of expertise to every project I undertake. My background in React and Firebase, Mithril and Node.js, as well as my hands-on experience as a CTO/Tech Lead utilizing Nextjs, MERN with TypeScript, have honed my skills in delivering highly performant and user-friendly applications. I am confident in my ability to leverage my knowledge of multiple programming languages and technologies to create innovative solutions that meet the needs of my clients. Whether working as a team player or leading technical projects, I am committed to delivering top-quality results.

Work History

2022-09 - 2023-07	Chief Technology Officer / Software Architect <i>WOOP Scholarship, Pagadian City</i> <ul style="list-style-type: none">Provided mentorship and guidance to junior software engineers on technical issues and best practices.Collaborated with other departments such as Quality Assurance, Product Management, Designers. to ensure successful project delivery.Developed and implemented software solutions utilizing Next.js 13.4, TypeScript, TailwindCSS, Node.js, Express, MongoDB, Vercel, and AWS.
